WORK EXPERIENCE

Jr. Laravel Developer - TechMayntra IT Solutions | May'24 - March'25

Built and maintained web apps with Laravel MVC, RESTful APIs, Git workflows, and enhanced UI using AJAX & JavaScript

• ----- Key Projects ----- •

Events (Ticket - ID Card Management System)

May 2024

- Worked on HTML and backend admin panel, developing key modules for script management, member and event addition, and automated ID card generation.

Cocoa Cake (Cake Order Management System)

June - July 2024

- Developed a system where frontend users can view cakes and request orders, while the backend manages orders, adds cakes, and processes efficiently.

Team OS (Customer Tracking System)

Aug - Sept 2024

- Worked on HTML Blade modifications, added new modules, and performed testing in the customer tracking system to ensure seamless functionality.

BNI (Business Network Marketing System)

Oct- Nov 2024

- Backend:** Built and managed website modules (categories, members, pins, roles, TLRS) with admin controls for user data management
- Frontend:** Developed user-facing features for profiles, business details, and networking, enabling easy search, email, and member contact.

CRM (Customer Relation Management System)

Dec 2024 - Jan 2025

- Built contact, customer, employee, proforma, and lead modules with CRUD functionalities for sales and transactions.

HRMS (Human Relation Management System)

Jan 2025

- Developed employee profile management (department, designation, holiday, shift) along with task, project, asset, leave, and visitor management; designed frontend using Bootstrap & HTML themes.

Task Automation (Task Management)

Feb - March 2025

- Created admin dashboard for task assignment, project tracking, company settings, support tickets, and reports; led team and integrated APIs.

Laravel Developer - NCode Technologies Pvt Ltd | April'25 - Aug'25

Developed new modules and functionalities while enhancing and optimizing existing features in an ongoing project

• ----- Key Projects ----- •

Pharmapro.fr (Pharmacy Job Portal)

April - August 2025

- Improved existing system with multi-step form functionality, Facebook authentication, email automation, and new page development
- Implemented admin-side features for job posting, approval, edit/delete, log management, and UI improvements

Jobpro.ch (CV Builder & Job Portal)

April - August 2025

- Modified existing CV templates, implemented UI improvements, and optimized PDF export for better performance
- Improved job posting with multi-step forms, live preview, PDF/link submissions, and admin controls

Sigma Control (Wooden Quality Certification System) April - August 2025

- Developed batch-wise and sub-user-wise certificate management with role-based login access and UI improvements
